4. FIRST-AID MEASURES

INHALATION	<i>Avoid generating mists. Remove casualty from contaminated area Keep patient sitting in upright position</i>
INGESTION	<i>If swallowed Do Not induce vomiting. Rinse mouth. Give large quantities of water. If breathing has stopped, give artificial respiration. Transport to hospital immediately.</i>
SKIN	<i>If skin contact occurs, remove contaminated clothing and wash skin thoroughly with soap and water. Wash clothing before re-use. If irritation persists, seek medical advice.</i>
EYE	<i>Possible loss of eyesight. Hold eyelids apart and flood the eye continuously with water for at least 10 minutes. Seek medical attention</i>
FIRST AID	<i>Initial focus is on the local action, signs of irritation of the respiratory tract such as coughing, burning behind the sternum, tears, burning in the eyes or nose. There is a risk of pulmonary oedema. Eye wash. Safety shower , hand wash basin</i>
ADVICE TO DOCTOR	<i>Possible loss of eyesight Superficial irritations and damage up to ulcerations and scarring develop on the skin</i>

5. FIREFIGHTING MEASURES

Extinguishing Media	<i>Water spray, Carbon dioxide, Dry powder or Foam</i>
Hazards from Combustion	<i>Material supports combustion Involved in fire, it may decompose yielding oxygen</i>
Precaution for Firefighter	<i>Wear chemical suit. Prevent run off from entering drains and waterways. HAZCHEM 2W</i>

6. ACCIDENTAL RELEASE MEASURES

EMERGENCY PROCEDURE

*Evacuate all unauthorised personnel. Do not breathe fumes or handle damaged containers
For small spills hose down area. For large spills absorb onto an inert material such as dirt or sand.
The collected material should then be transferred into suitable containers , labelled and disposed of in an appropriate way.
Dispose of waste according to applicable local and national regulations*

7. HANDLING AND STORAGE

PRECAUTIONS FOR SAFE HANDLING

*Wear appropriate protective clothing
Avoid inhalation of vapours and mists and skin or eye contact. Use only in a well ventilated area. Keep containers sealed when not in use.
Prevent the build up of mists and vapours in the work atmosphere. Do not use near ignition sources, cut, heat containers as they may produce hazardous fumes. Maintain high standards of personal hygiene ie washing hands prior to eating, drinking, smoking or using toilet facilities*

CONDITIONS FOR SAFE STORAGE

Corrosive liquid . Store in a cool, dry, well ventilated area away from sources of ignition , strong alkalis, foodstuffs and clothing. Large quantities should be stored in a banded dangerous goods store. Prevent contact with aluminium, tin, zinc or galvanised iron .Store in original containers
