3. COMPOSITION /INFORMATION ON INGREDIENTS

INGREDIENTS	CAS.NO.	PROPORTION
Ethyl alcohol	64-17-5	70 - 80 %
Non hazardous ingredients		5 - 10 %
Water		Balance

4. FIRST-AID MEASURES

INHALATION	May cause irritation to respiratory system. Remove casualty from contaminated area. Inhalation of vapour may result in drunkenness (as per effects of ingestion) Symptoms may occur at airborne levels of 1000-5000 ppm
INGESTION	If swallowed Do Not induce vomiting. Give water or a glass of milk. If breathing has stopped, give artificial respiration. Transport to hospital. Effects of small intake include headache,dizziness,blurred vision,fatigue. Ingestion of a large amount may lead to severe intoxication, tremours, convulsion, loss of consciousness. Coma, respiratory arrest and death
SKIN	If accidental skin flooding occurs, remove contaminated clothing and wash skin with soap and water. Wash clothing before re-use. If irritation persists, seek medical advice.
EYE	If in eyes, hold eyelids apart and flood the eye continuously with water for at least 15 minutes. Seek medical attention if irritation persists
FIRST AID	Eye wash. Safety shower , hand wash basin
ADVICE TO DOCTOR	Treat for alcohol poisoning

5. FIREFIGHTING MEASURES

Extinguishing Media	Foam, water spray or fog , dry chemical powder or carbon dioxide. Do not use water in a jet
Hazards from Combustion	Carbon monoxide may be evolved if incomplete combustion occurs. Vapour is heavier than air, can spread along ground and distant ignition is possible
Precaution for Firefighters	Wear chemical suit and self-contained breathing apparatus. Prevent run off from entering drains and waterways. HAZCHEM CODE 2YE

6. ACCIDENTAL RELEASE MEASURES

EMERGENCY PROCEDURE

Evacuate all unauthorised personnel. Isolate hazard area. Avoid contact with spilled or released material. Remove all sources of ignition to the surrounding area. Take precautionary measures against static discharge. Do not breathe fumes or handle damaged containers
For all spills absorb onto an inert material such as dirt or sand. The collected material should then be transferred into suitable containers , labelled and disposed of in an appropriate way.
Dispose of waste according to applicable local and national regulations

7. HANDLING AND STORAGE

PRECAUTIONS FOR SAFE HANDLING

Highly Flammable liquid.

Avoid inhalation of vapours and mists and eye contact. Use only in a well ventilated area. **NO SMOKING** . Keep containers sealed when not in use. Prevent the build up of mists and vapours in the work atmosphere. Do not use near ignition sources, cut or heat containers as they may produce hazardous fumes. Maintain high standards of personal hygiene ie washing hands prior to eating, drinking, smoking or using toilet facilities

CONDITIONS FOR SAFE STORAGE

Store in a cool, dry, well ventilated area away from sources of ignition, oxidising agents , strong acids, peroxides, foodstuffs and clothing. Large quantities should be stored in a bunded dangerous goods store. Store in original containers
