### **4. FIRST-AID MEASURES**

<b>INHALATION</b>	Avoid generating mists. Remove casualty from contaminated area
<b>INGESTION</b>	If swallowed Do Not induce vomiting. Give water or a glass of milk. If breathing has stopped, give artificial respiration. Transport to hospital.
<b>SKIN</b>	If skin contact occurs, remove contaminated clothing and wash skin thoroughly with soap and water. Wash clothing before re-use. If irritation persists, seek medical advice.
<b>EYE</b>	If in eyes, hold eyelids apart and flood the eye continuously with water for at least 15 minutes. Seek medical attention
<b>FIRST AID</b>	Eye wash. Safety shower , hand wash basin
<b>ADVICE TO DOCTOR</b>	Treat symptomatically

### **5. FIREFIGHTING MEASURES**

<b>Extinguishing Media</b>	Foam, water spray or fog , dry chemical powder or carbon dioxide.
<b>Hazards from Combustion</b>	Carbon monoxide may be evolved if incomplete combustion occurs. Vapour is heavier than air, can spread along ground and distant ignition is possible
<b>Precaution for Firefighters</b>	Wear chemical suit and self-contained breathing apparatus. Prevent run off from entering drains and waterways. HAZCHEM CODE 3YE

### **6. ACCIDENTAL RELEASE MEASURES**

#### **EMERGENCY PROCEDURE**

Evacuate all unauthorised personnel. Isolate hazard area. Avoid contact with spilled or released material. Remove all sources of ignition to the surrounding area. Take precautionary measures against static discharge. Do not breathe fumes or handle damaged containers  
For all spills absorb onto an inert material such as dirt or sand. The collected material should then be transferred into suitable containers , labelled and disposed of in an appropriate way.  
Dispose of waste according to applicable local and national regulations

### **7. HANDLING AND STORAGE**

#### **PRECAUTIONS FOR SAFE HANDLING**

Flammable product. Wear appropriate protective clothing  
Avoid inhalation of vapours and mists and skin or eye contact. Use only in a well ventilated area. NO SMOKING . Keep containers sealed when not in use. Prevent the build up of mists and vapours in the work atmosphere. Do not use near ignition sources, cut, heat containers as they may produce hazardous fumes. Maintain high standards of personal hygiene ie washing hands prior to eating, drinking, smoking or using toilet facilities

#### **CONDITIONS FOR SAFE STORAGE**

Store in a cool, dry, well ventilated area away from sources of ignition, oxidising agents , strong acids, peroxides, foodstuffs and clothing. Large quantities should be stored in a banded dangerous goods store. Store in original containers

### **8. EXPOSURE CONTROLS / PERSONAL PROTECTION**

<b>Exposure Limits</b>	Mineral Spirits 150-200 HSPA 350mg/m <sup>3</sup> TWA (8hr.)
<b>Engineering Controls</b>	This substance is hazardous. Ensure adequate ventilation is provided Avoid generating and inhaling mists. Maintain air concentrations below recommended exposure standards.
<b>Eye Protection</b>	Safety glasses with side shields should be used.
<b>Hand Protection</b>	Wear gloves of impervious material such as neoprene, or nitrile rubber.
<b>Hygiene Measures</b>	Avoid contact with skin, eyes and clothing Wash hands after handling product. Keep away from foodstuffs.
<b>Skin &amp; Body Protection</b>	Wear rubber apron
